## Recyclex® TRMs

Providing Optimal Growing Conditions and Long-Term Vegetation Reinforcement Using Fibers from 100% Post Consumer Goods.

Day of  
Installation

Four Months  
Later

Recyclex TRM protected the seed and soil while creating optimal growing conditions to provide long-term vegetation reinforcement to this channel. Recyclex TRMs have a light color that prevents seed burn-out. Approximately 18 plastic bottles are diverted from landfills for every pound of Recyclex fibers. Recyclex fibers don't float, which ensures your soil is covered during hydraulic events..
